MOBILISING THE EUROPEAN DEMOS FOR FEMINIST JUSTICE
WeMove.EU

• 6 languages
• 645 000 members
• 2500 recurring donors
Locations in Europe
Why a European online campaigning organisation?

• Considerable decision-making takes place at EU level
• Therefore need to mobilise transnationally
• But Europeans speak a wide variety of languages (24 official in EU).
• Sense of belonging to a European demos is limited, even decreasing
• (almost) No EU Media
• Eurosceptic political groups are gaining popularity. Most are far right wing.
Our responses

WHAT
• Better decisions at EU level
• More solidarity and more engagement across people’s in Europe

HOW
• Speak various European languages
• Show evidence of our commonalities
• Provide space for a joint, transnational, European struggle
• Educate about how the EU works
• Work in close collaboration with CSOs at national level
Our model

• Critical with other models of online campaigning; Theory of Change matters
• Decentralized, not Brussels based
• Work in partnership; a mobilization instrument for movements
• Community surveying
Our work - petitions

MEPs, make the polluters pay!
To the Members of the European Parliament

Petition
Don’t let big polluters off the hook - act to make them pay the full price for the damage to our health, environment and climate. Vote for an ambitious reform of Europe’s main climate policy, for an effective price on carbon and for a decisive action against the threat of climate change. Don’t let dirty industry lobbyists dictate EU policies.

Join the call for action!

Consultation Fact Sheet - Criminalising Humanity

Below you can find our simple guidelines on how to fill in the form and some information on key questions. Remember, the Commission wants to know what you think, and if you’re hesitating, think about how many people lives will be touched by this policy.

How to fill in the form

- It will only take 5 minutes of your time.
- Questions 6 - 10 all relate to the criminalisation of those offering humanitarian assistance to migrants.
- If you’re limited on time, questions 8 and 10 are the most important to answer in order to get the message across that people offering humanitarian assistance to migrants should not face criminal charges.
- You can fill in the form in any of the official EU languages.
- The first three questions are the only mandatory questions (they are about you--are you an individual, NGO, etc. etc.)

Fill in the consultation now

Question 6

Answering this question is mandatory. It asks if you feel current law on migrant smuggling is sufficient for its purpose. Since we know it does not explicitly make humanitarian assistance in the context of migration legal, we would answer ‘no’ to this question.

Question 7

* Question 8 *

Question 9

* Question 10 *

What is a Public Consultation of the European Commission?

Consultation on ‘Tackling Migrant Smuggling’

Joint opposition against patent for Syngenta on a tomato

In 2015, the European Patent Office (EPO) granted patent EP 1515600 to Syngenta. This patent covers tomatoes with a high content of so-called flavonols, which are supposedly beneficial to health. This “invention”, however, is simply a product of crossing varieties from Latin America with varieties currently grown in the West. European Patent Law prohibits patents on plant varieties and on conventional breeding.

European Patent Law gives every citizen of their member states the right to file an opposition against a patent. To stop Syngenta profiting from life, we are filing an official opposition with the European Patent Office to this patent.

To add your name to the opposition, please fill in the fields below.

Information
- Adding your name to this opposition will not cost you anything or have any financial implications. All costs will be shared by WeMove and partners.
- All of your data will be digitally published by the European Patent Office. We will not publish your data at all.
- To ensure the successful submission of our opposition, all of the fields below must be completed.

Our work—crowdfunding for campaigning

450 244 soutiens

Nous sommes tous sous le choc, accablés et en deuil après les attentats terroristes perpétrés à Paris. Nous présentons toutes nos condoléances aux familles, amis et proches des victimes.

Ce message, nous l’adressons à toutes les victimes de Daech à travers le monde, après les attaques aveugles qui ont frappé Ankara, Beyrouth, l’Irak, le Nigéria, la Syrie et enfin tous les réfugiés contraints de fuir leur propre pays pour échapper à cette même terreur qui a frappé Paris.

Aujourd’hui plus que jamais, nous souhaitons témoigner de notre attachement à la paix et en tant que citoyens du monde rappeler les valeurs universelles de liberté, d’égalité et de fraternité.

Left to freeze

Petition

To the EU Ministers for Home Affairs and Migration

In 2016 you committed to helping some of the refugees who arrived at Europe’s doorstep to find a home. To this day, you have relocated only a tiny fraction of the people we are able to host. The situation has become unbearable and requires urgent attention. Follow through with your commitments.

V, please can you chip in?

Our petition has lots of refuge and humanitarian in poor who can actually help people in Croatia and Serbia. But there's a lot of work to be done. And that's what the WeMove community is best at.

If we all donated a few euros to the organizations on the ground would help keep people alive on these freezing winter days and nights. That would mean the difference between life and death. We need every little bit of support now.

Your donation will go directly to the organizations working in Belgrade and on the Greek islands to ensure people survive the freezing temperatures. Donate now.

These are some of the top organizations that the entire sum of your donation will go towards supporting:

Belgrade International is an organization providing vital humanitarian assistance to the refugees who have passed through Serbia since 2015.

Should the number of donations exceed 5,000 we will distribute that among other organizations on the ground in Greece and in Serbia to assist as much widespread support as possible.
